# WEB101 Prework

👤 Student Name: **Syed Zaidi**

✉ Email: **szaidi2024@fau.edu**

# Submission Checklist

👉 *Check off each of the features you have completed.* **You will only be graded on the features you check off.**

☑ Question #1 answered below (*all 3 subquestions with minimum word count*)
☑ Question #2 answered below (*all 3 subquestions with minimum word count*)
☑ Wireframe

# Individual Brainstorm

❓ **Question #1:** Describe your website subject in detail:

> What do you already know about your social impact topic? (*50+ words*)
>
> The topic I chose for this project is "Shifting Societal Focus from Materialism to Global Awareness". I already have a strong belief that this would make the world a better place overall. Due to lack of humanity and immense greed, it is very unlikely to happen unless a drastic economic shift is introduced.

> What do you still need to find out about your social impact topic in order to create a meaningful website? (*20+ words*)
>
> I will need to find out deeper ideas and issues related to the topic rather than scratching the surface to understand and be able to display a page which truly represents my ideas and the topic.

> Who are the stakeholders involved with/affected by your social impact topic? ie children, people living in cities, politicians, CEOs, female-identifying persons (*20+ words*)
>
> Every single human being will be affected by my social impact topic, not that it would change much as I mentioned earlier, a drastic economic change would have to be introduced for capitalism and greed to die off. Greed is a part of human nature that needs to be controlled just like any want.

❓ **Question #2:** Describe your proposed website in detail:

What is the purpose of your website? (*30+ words*)

My website will represent not only my ideas about the topic, it will also be an eye opener if not a brain opener for people who have been trained since childhood to chase money. It will give the audience a broader perspective of the real world rather than their current idea of what the world is.

Who is your intended user? (*30+ words*)

My intended audience is anyone who has been trained since childhood to run after money and be materialistic. Money does free up time and solve a lot of issues that someone without money faces, however, just like everything in this world, it also has its cons along with the pros.

How will your user interact with your website? (*30+ words*)

Users will be able to see the Main Topics on the Main Page of the website, once they click the main topic they are interested in, it will direct them to another page which has more information and pictures etc. on that topic. All the topics on the Main Page will be sub-topics of the topic I chose for this project.

## Wireframe

❓ When creating your wireframe, ask yourself:
- What about your topic do you want shared on your website?
- How do you want your content and website structured?

❓ Copy/Paste a screenshot of your wireframe or a link to it below (if using a link, make sure it is publicly viewable).

# Main Topic
